We're Excited! It's time to celebrate!

Energetic Nutritional Testing is a unique testing method which incorporates various muscle testing techniques, Acupoints Testing, and Emotional Release Therapy. This unique muscle testing technique can zero in on the causes of disease and the right nutritional program to correct them.

Over the past year, Dr. Lee has used Energetic Nutrition Testing to successfully help his patients overcome fatigue, weight problems, irritable bowels, acid reflux, high cholesterol/blood pressure, PMS, menopause symptoms and other health related conditions. (See some of the testimonials enclosed.) Needless to say, we are very excited about how Energetic Nutrition Testing has changed our practice into a true "Wellness Center." ***But wait, it gets even better!*** With his advanced training and high level of expertise in the area of Energetic Nutritional Testing, Dr. Lee now has the ability to find previously hidden, underlying causes of stubborn or resistive health situations. This means he is able to effectively "crack" even the most difficult cases...chronic allergies, can't lose weight, aches and pains that won't quit...just to name a few.

In order to celebrate Dr. Lee's accomplishment, during the month of August we are offering a Complete Health Analysis to our patients who have not yet experienced the benefits of Energetic Nutritional Testing and designed clinical nutrition. Or if you have had some nutrition services here in the past and it's been awhile since we've seen you, this offer is for you too! The Complete Health Analysis includes the following:

- Body Fat Analysis
- Energetic Nutritional Testing
- Report of Findings with Recommendations

These services normally cost \$150; however, if you call during the month of August it will be **ONLY \$30.00!! That's right! \$30.00!** It's our way of thanking our patients for helping us grow over the past year and allowing you to be as healthy as you can be! **So don't delay and give us a call today!**

Come join the celebration! Stop by our office anytime during the month of August to help us celebrate Dr. Lee's Master Certification. We'll have free samples and you can enter the drawing for a \$75 gift certificate for a session of Ionic-Cleanse detoxification program to be held August 31, 2006. Hope to see you soon

New IONIC-CLEANSE Detoxification Program as covered on the Discovery Channel on TV

It literally drains toxins from your lymph nodes out of your feet in twenty to thirty minutes. It is especially effective if done right after the **Acupuncture** treatment since the channels are all open and ready to let the toxins out. **First trial only \$60. (\$75 per normal sessions)**
 We have treated the same patient with only Ionic-cleanse and then compared to Ionic-cleanse followed by the Acupuncture treatment. The combination treatments with two modalities results in more drainage of toxins out of the patient than just Ionic-cleanse by itself.

Please call 650-380-1999 to book your first trial today!

INTRODUCING NEW SERVICE: ALLERGY CLEARING TREATMENT

AACT (Accelerated Allergy Clearing Treatment) is a revolutionary treatment system based on principles of acupuncture and the electromagnetic properties of all matter. This treatment leads to the permanent and medication-free elimination of any type of allergy. A series of AACT treatments will "re-educate" your body so it stops reacting defensively toward individual allergens and "accepts" them as a safe substance for your body. AACT is simple, non-invasive and extremely effective as the process involves using laser and tapping on acupressure points. The Technique is successfully practiced by trained health practitioners, including MD's, nurses, acupuncturists, chiropractors and dentists.

BENEFITS OF AACT

- Multiple Allergies can be safely and effectively run at the same time.
- Multiple sessions can be safely and effectively given the same day. The frequency can be as short as 3 hours apart for emergency requests.
- Organ, tissue, and/or body-part specific.

Common treatable allergies include dairy, caffeine, meat, peanuts, animal dander, dust mites, flowers, mold, pollen, trees, and many more.
