Energetic Nutritional Testing is a unique testing method which incorporates various muscle testing techniques, Acupoints Testing, and Emotional Release Therapy. This unique muscle testing technique can zero in on the causes of disease and the right nutritional program to correct them.

Over the past year, Dr. Lee has used Energetic Nutrition Testing to successfully diagnose her patients to overcome fatigue, weight problems, irritable bowels, acid reflux, high cholesterol and blood pressure, PMS, menopause symptoms and many more. She is able to effectively "crack" even the most difficult cases such as chronic allergies, inability to lose weight, reoccurring aches and pains.

## FAQ's

### ***What is the difference between Traditional Chinese Medicine and Western Medicine?***

The primary mode of thought in Western medicine is very analytical, where they dissect things into very small parts until it points down to a very specific disease. Chinese Medicine completely do the opposite way. We put all the signs and symptoms together, piece by piece, gathering as much information from you as possible until the picture of a whole person appears. That is what is amazing about the Chinese diagnostic and treatment method.

Therefore, the Chinese way of diagnosing disease is only meaningful when it was presented as a picture of a person rather than an isolated disease. And it has to be a particular patient at a specific time, depending on the mood and condition of the body. The treatment in Chinese medicine is also focused on a whole person, rather than a single isolated disease.

In Chinese Medicine we believe that mental, emotional, and physical illness are closely related. That is why it is vital to take the entire person into account. On the other hand, Western medicine tends to place different qualities in separate categories and they are not interchangeable. In other words, the mind and body are separate entities, and according to Western thought, they are only sometimes interrelated.

For example, if you have abdominal problem, you will be referred to an internal medicine specialist. And at the same time, if you have mental depression, you will be referred to a psychiatrist. However, if you seek treatment under Chinese Medicine, we will gather as much signs and symptoms as possible, and then your multiple conditions of your whole body will be diagnosed as one. And they are interrelated, because our body, mind and soul are together.

### ***What is Nutrition Response Testing?***

- Precise and scientific analysis of your body's own neurological reflexes and acupuncture points.
- Personalized health improvement program using designed clinical nutrition.
- Use of organic whole food supplements — vitality and energy is derived from live food but • most foods we have access to are dead or not really "food"
- Unique nutritional program designed specifically for you.

- A study of how the different points on the body relate to your state of health and flow of energy in organs and functions of the body.
- A method to get healthy & stay healthy by being responsible for your own health.
- A nutritional analysis with a high rate of success.
- A way to improve your immune response and cope with environmental stresses.

*In Summary:*

1. Through analysis of your body's reflexes, we help you determine the exact nutrients you need to supplement your diet.
2. We make these therapeutic formulations available to you.
3. Depending on your situation, we may require specific changes in your diet, eating habits and your routine.

***How does the Ion-Cleanse Detoxification work?***

The IonCleanse creates precisely the same environment as a walk along the beach, only more powerfully because your feet are in direct contact with the ions being manufactured in the water. Place your feet in the water, turn on the unit and within seconds, millions of ions enter your body and begin to neutralize these tissue acid wastes. Fat and mucous residues found in the water after bathing reflect the wastes that have left the body during the 20 to 30 minute session. Healthy individuals can expect to feel lighter and experience a greater sense of well being from each IonCleanse session. Many people with pain, edema, gout and swollen or deteriorating joints report considerable symptomatic relief from IonCleanse sessions.
